

IS YOUR HOME LEAD-SAFE?

YOUR CHILD MAY BE AT RISK

- Children can absorb up to 50% of lead ingested.
- Symptoms can be vague.
- Even the lowest levels can cause tiredness, short attention span, restlessness, difficulty sleeping, poor appetite, change in behavior and hearing loss. These symptoms can imitate other illnesses.

YOU MAY QUALIFY

- ✓ If you own & occupy a home in Sedgwick County-Wichita, Kansas
- ✓ Your home was built before 1978.
- ✓ Your household income is less or equal to 80% of the areas median income.
- ✓ You have a child 6 years of age or younger who lives in your home or visits more than 10 hours every week.
